private management of, 315
Water testing
and health risk perceptions, 320
Water use plan
ecologically more reasonable, 167(a)
Waterman, A.B. (see Schwartz, J.)
Watershed management
in agarian Sikkim Himalaya, 125
binational, 163(a)
and communication with public, 180(a)
computer based, 171(a)
evolution in case study, 182(a)
with HACCP, 173(a)
modeling of, 159(a), 171(a)
monitoring permit activity, 173(a)
motivations for, 353
multi-criteria approach, 172(a)
multi-state project, 181(a)
partnership approach, 168(a), 171(a)
and pesticide loss database, 178(a)
with SPERG, 178(a)
and storm water impact, 167(a)
Sweetwater River, 167(a)
using SWAT, 177(a)
Watershed planning
modeling of, 165(a)
partnership approach, 167(a)
using GIS, 169(a)
Watersheds
adoption projects, 182(a)
exurban, 161(a)
modeling of major US, 183(a)
urban, 183(a)
and water quality, 183(a)
Weed management
and exotic grasses, 292(a)
using smother plants, 272
Weil, R. (and J. Gruver), The effect of cover crops on soil active carbon, 289(a)
Weller, B. (see Frederiksen, S.)
Wells
private management of, 315
and water testing, 320
WEPP
and claypan soils, 177(a)
Wetlands
Everglades, 157(a)
identification of, 178(a)
Wetlands restoration
and agricultural production, 170(a)
a partnership approach in Nebraska, 183(a)
and The Wetland Science Institute, 174(a)
Wheat
biomass, 259
rotations and nitrogen fertilizers, 292(a)
as winter cover crop, 280, 285
yields, 133
Whited, D. (and D. Pitt, B. Wilson and J. Almendinger), Modeling the hydrologic and water quality implications of residential land use transitions in exurban landscape structure, 161(a) (see also Hanson, M.)
Whitten, A. (and S. Potter, D. Yoder and R. Yoder), Variability of water quality and hydrology in urban watersheds, 183(a)
Whole farm planning
a case study in Iowa, 171(a)
Wienhold, B.J. (and A.D. Halvorson), Cropping system influences on several soil quality attributes in the northern Great Plains, 254
Wiese, A.F. (see Harman, W.L.)
Wilkins, D. (see Douglas, C., Jr.)
Williams, J. (and M. Dombeck and C. Wood), Restoring health to the land: Power, potential and pitfalls of community-based coalitions, 159(a) (see also, Douglas, C., Jr.) (see also Atwood, J.)
Williams, R.G. (see Altier, L.S.)

Wilson, B. (see Whited, D.)
Wilts, A. (see Reicosky, D.C.)
Wind erosion
in China, 160(a), 177(a)
effects on nutrient redistribution, 133
effects on soil productivity, 133
management system, 290(a)
in Sahel region of Niger, 120
and sunflower residue, 347
Wind speed
and sunflower height, 347
Winter wheat
residue and soil erosion, 71
Winters, P. (and C. Crissman and P. Espinosa), Soil and water conservation through agricultural diversification and intensification: A case study from Ecuador, 166(a)
Wood, C. (see Williams, J.)
Wood fuel
exploitation of, 180(a)
Wood, J. (and K. Kinvig), A water quality and land use study utilizing GIS and modeling technologies, 183(a)
Wu, S. (and D. Walker and M. Brusven), economic and environmental impacts resulting from conservation compliance and farm policy reforms in the 1996 Farm Bill, 163(a)
